

# Saskatchewan Consumer Price Index

December 2013

---

According to Statistics Canada, the Saskatchewan All-items Consumer Price Index decreased 0.2 percent between November 2013 and December 2013 while the Canada All-items Index also declined 0.2 percent. The Regina and Saskatoon All-items Consumer Price Index both fell 0.2 percent during the same period.

In Saskatchewan, the December All-items Index decreased from November 2013 primarily due to lower prices for women's clothing, men's clothing and footwear. Prices also fell for traveller's accommodation, the purchase and leasing of passenger vehicles, dairy products and other food preparations.

Moderating these decreases were higher prices for gasoline, furniture, mortgage interest cost and homeowners' replacement cost. Higher prices were also reported for fresh fruit, non-alcoholic beverages and paper, plastic and foil supplies.

The Saskatchewan All-items Consumer Price Index advanced 2.3 percent between December 2012 and December 2013 while the Canada All-items Index increased 1.2 percent. The Regina and Saskatoon All-items Consumer Price Index climbed 2.5 percent and 1.9 percent, respectively, during the same period.

The December All-items Index increased from December 2012 primarily due to higher prices for the purchase and leasing of passenger vehicles, gasoline and passenger vehicle insurance premiums. Prices also increased for cigarettes, food purchased from restaurants, electricity and homeowners' replacement cost.

These increases were partially offset by lower prices reported for homeowners' home and mortgage insurance, travel tours, clothing accessories, watches and jewellery and prescribed medicines. Prices also fell for seeds, plants and cut flowers, home entertainment equipment, parts and services and non-electrical kitchen utensils, tableware and cookware.
